EDUCATION

High School Diploma, Onjiko High
School
2023

TECHNICAL SKILLS

- HTML
- CSS
- Problem-solving
- Teamwork
- Backend development

SUMMARY

As an entry-level employee in the tech industry, I've taught myself HTML and CSS and am currently pursuing a Backend Developer Program at ALX Africa. Although I'm at the beginning of my career, I'm highly dedicated to learning and have a real knack for solving problems. I'm committed to contributing effectively to team projects and continuing to grow and develop in this field.

WORK EXPERIENCE

Backend Development Internship

ALX Africa

Collaborating with team members to develop and implement backend solutions for web applications.

Contributing to problem-solving sessions and troubleshooting issues to ensure project completion.

PROJECTS

- Created interactive web interfaces using HTML and CSS.
- Implemented backend functionality for web applications using Python and SQL.

ADDITIONAL INFORMATION

- Strong interest in joining a major tech company like Google to contribute to innovative app development and impact millions of users.
- Known for problem-solving abilities and dedication to teamwork, ensuring projects are completed efficiently and effectively.
