EDUCATION

Backend Development Program

ALX Africa, 2024

Completed an intensive backend development course, focusing on Django, Python, and web development best practices.

High School Diploma, Onjiko High School 2023

TECHNICAL SKILLS

- Problem-Solving
- Team Collaboration
- Backend Development (Python, SQL)

SUMMARY

Entry-level backend developer with a solid foundation in Python, Django, and SQL, backed by formal training at ALX Africa. Highly motivated and committed to building scalable backend solutions. Recognized for strong problem-solving abilities and a collaborative approach to team projects.

WORK EXPERIENCE

Backend Development Intern
ALX Africa

- Collaborated with team members to develop and implement backend solutions for web applications.
- Contributed to problem-solving sessions and resolved technical issues to ensure timely project completion.

PROJECTS

E-commerce API: Developed a RESTful API for an e-commerce platform using Django REST framework, implementing CRUD operations for products, user authentication, and order management.

Social Media API: Created a scalable API to support basic social media functionality, including user registration, profile management, and post creation with relational database integration.

Database Optimization: Designed and optimized database schemas using SQL to ensure efficient data retrieval and scalability across applications.

ADDITIONAL INFORMATION

- Passionate about joining a major tech company like Google to contribute to innovative backend solutions that impact millions of users.
- Known for problem-solving skills and commitment to teamwork, ensuring efficient and effective project completion.
